1. Claims 1-13, 28, 29, 43, 44 and 58-74 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1-13, 28, 29, 58, 59 and 73:

The structural arrangement in a flexible interconnect structure with the limitations "circuit traces disposed on at least one of said opposing surfaces, said removed portions being located where said circuit traces are not present" and "the interconnect structure remains flexible about at least two intersecting mutually perpendicular axes," in combination with other claimed limitations of the base claim 1 has not been disclosed or fairly suggested by the prior art of record alone or in combination.

Regarding claims 43, 44, 60-72 and 74:

The structural arrangement in a flexible interconnect structure with the limitations "circuit traces disposed on at least one of said opposing surfaces, said removed portions being located where said circuit traces are not present;" and "the first heat sink being spaced from the second heat sink in a first direction and the first heat sink being spaced from the third heat sink in a second direction that is not parallel to the first direction," in combination with other claimed limitations of the base claim 60 has not been disclosed or fairly suggested by the prior art of record alone or in combination.

3. Claims 28, 29, 43, 44, 58 and 59, previously withdrawn from consideration as a result of a restriction requirement, are rejoined herewith, along with newly added claims 73 and 74 and fully examined for patentability under 37 CFR 1.104, as they directly or indirectly depend upon and include all the limitations of the allowable claims 1 and 60.
